 CSS 12 years	★★★★★	 PHP 10 years	★★★★★
 C++ 2 years (non-commercial usage)	★★★☆☆	 Java 1 year (non-commercial usage)	★★☆☆☆

NoSQL DBMS

 MongoDB 1 year	★★★★★	 Couchbase 2 years	★★★★★
 Elasticsearch 2 years	★★★★★	 Redis 4 years	★★★★★

Relational DBMS

 MS SQL 3 years	★★★★★	 MySQL 12 years	★★★★★
 PostgreSQL 1 year	★★★☆☆		

ORM

 Sequelize 3 years	★★★★★	 Mongoose 1 year	★★★★★
---------------------------------------------------------------------------------------------------------	-------	----------------------------------------------------------------------------------------------------------	-------

Tools/Frameworks

 Node.js 4 years	★★★★★	 Express.js 4 years	★★★★★
 HAPI Less than a year	★★★★★	 jQuery 7 years	★★★★★
 Angular 1 year	★★★☆☆	 Backbone Less than a year	★★☆☆☆
 React Less than a year	★★★★☆	 NW.js Less than a year	★★★☆☆
 PhoneGap Less than a year	★★☆☆☆	 Cordova Less than a year	★☆☆☆☆
 Jade 4 years	★★★★★	 LESS 4 years	★★★★★
 SASS Less than a year	★★☆☆☆	 Bootstrap 4 years	★★★★★
 Material-UI 12 years	★★★★☆		

Team Collaboration Tools

 Git 5 years	★★★★★	 Subversion 5 years	★★★★★
 JIRA 2 years	★★★★☆	 Redmine 1 year	★★★★★
 Target Process 1 year	★★★☆☆		

Network Technologies

REST	HTTP(S) REST 5 years	★★★★★	 OAuth (1, 2) 1 year	★★★★☆
	WebSockets 1 year	★★★★☆		

Other Tools

	Gulp 1 year	★★★★★	 Grunt 4 years	★★★★★
	NPM 4 years	★★★★★	 Bower 4 years	★★★★★
API DOC	ApiDoc 2 years	★★★★★	 RAML 1 year	★★★★☆
	Swagger 1 year	★★★★☆	 Mocha 4 years	★★★★★
	JSHint 2 years	★★★★★		

Experience

2014 - Present time, Node.js Developer

Freelancer (Odesk/Upwork) <http://upwork.com/>

More than year I used to work remotely for MarketWave. (<http://www.market-wave.com/>) MarketWave is company who provide customer multi-channels management (Phone, Live Chat, etc). Company provide sales support for visitors with key leaders of e-commerce. They was my general clients.

Primary Responsibilities:

- Design, develop, test and deploy web applications
- Develop appropriate code structures to solve specific tasks according to standards
- Fix bugs, troubleshoot and resolve problems
- Build flexible data models and seamless integration points
- Comment code and write documentation using ApiDoc
- Code review

Used technologies and tools:

- Platforms: Node.js
- Frameworks: Express, Angular, Bootstrap
- Databases: MS SQL, Couchbase, Elasticsearch
- Documentation: ApiDoc
- QA: Mocha, JSHint
- Another tools: Less, Jade, Grunt, Bower, NPM

2012 - 2014, Team Leader / Project Manager

QCoders <http://qcoders.com/>

During work in this company I had only one general project which was divided to few small subprojects. InTouch <http://intouch.inweb24.us/> InTouch is a email marketing system. Like MailChimp or Mandrill but with an emphasis in network marketing. I'm started this project from scratch. Gradually our team has grown up to 7 developers. It was first experience with Node.js on commercial project.

Primary Responsibilities:

- Project management
- Team management (team of seven members)
- Estimating and resource planning
- Design and development of system architecture
- Design and development of source code
- Database design and development
- GUI design
- Code review

Used technologies and tools:

- Platforms: Node.js
- Frameworks: Express, Backbone, Bootstrap
- Databases: MongoDB
- Documentation: RAML
- QA: Mocha
- Another tools: Less, Jade, Grunt, Bower, NPM

2011 - 2012, Senior Software Developer / Team Leader

Quadecco <http://quadecco.de/>

Development of many projects for outsourcing company using following technologies

Primary Responsibilities:

- Team management
- Estimating and resource planning
- Design and development of system architecture
- Design and development of source code
- Database design and development
- GUI design
- Code review

Used technologies and tools:

- Platforms: PHP, Javascript, HTML, CSS
- Frameworks: Yii, Zend Framework, jQuery, Mootools
- Databases: MySQL, MSSQL

2009 - 2011, Senior Software Developer / Team Leader

ZFort Group <http://www.zfort.com.ua/>

Development of many projects for outsourcing company using following technologies

Primary Responsibilities:

- Team management
- Estimating and resource planning
- Design and development of system architecture
- Design and development of source code
- Database design and development
- GUI design
- Code review

Used technologies and tools:

- Platforms: PHP, Javascript, HTML, CSS
- Frameworks: Yii, PRADO, Zend Framework, jQuery
- Databases: MySQL

2007 - 2009, Software Developer

Intetics Co <http://intetics.com/>

Development of many projects for outsourcing company using following technologies

Primary Responsibilities:

- Code development
- Database development

Used technologies and tools:

- Platforms: PHP, Javascript, HTML, CSS
- Frameworks: jQuery
- Databases: MySQL
