Conversational English.

## Education

Graduated from Kharkiv National University of Radio Electronics in 2007, Masters Degree. Kharkiv, Ukraine.

M.S. in Computer Science, major in Computer Data Processing Systems.

## Skills (self attested)

White belt - Basic level. (Worked with it several times)

Green belt - Strong knowledge. (Many times used it on many projects)

Black belt - I'm a ninja!

## OS/Platform

Windows

10+ years (since 1998)

Linux

10+ years (since 2004)

FreeBSD

2 years

MacOS

Less than a year

## Programming Language

JavaScript

10+ years (since 2004)

HTML

10+ years (since 2004)

CSS

10+ years (since 2004)

PHP

10+ years (since 2004)

C++

2 years

Java

More than a year

## NoSQL DBMS

	MongoDB <i>More than a year</i>	
	Couchbase <i>2 years</i>	
	Elasticsearch <i>2 years</i>	
	Redis <i>4 years (since 2013)</i>	

## Relational DBMS

	MS SQL <i>3 years</i>	
	MySQL <i>10+ years (since 2004)</i>	
	PostgreSQL <i>More than a year</i>	

## ORM

	Sequelize <i>4 years (since 2013)</i>	
	Mongoose <i>More than a year</i>	

## Team Collaboration Tools

	Git <i>5 years</i>	
	Subversion <i>5 years</i>	
	JIRA <i>2 years</i>	
	Redmine <i>More than a year</i>	
	Target Process <i>More than a year</i>	

## Tools/Frameworks

	Node.js <i>4 years (since 2013)</i>	
	Express.js <i>4 years (since 2013)</i>	
	HAPI <i>Less than a year</i>	
	jQuery <i>8 years (since 2009)</i>	
	Angular <i>2 years</i>	
	Backbone <i>Less than a year</i>	
	React <i>More than a year (since 2016)</i>	
	Redux <i>More than a year (since 2016)</i>	
	NW.js <i>Less than a year</i>	
	PhoneGap <i>Less than a year</i>	
	Cordova <i>Less than a year</i>	
	Jade (Pug) <i>4 years (since 2013)</i>	
	LESS <i>4 years (since 2013)</i>	
	SASS <i>2 years (since 2015)</i>	
	Bootstrap <i>4 years (since 2013)</i>	
	Material-UI <i>More than a year (since 2016)</i>	

## Network Technologies

REST	HTTP(S) REST <i>5 years (since 2012)</i>	
	OAuth (1, 2) <i>More than a year</i>	
	WebSockets <i>More than a year</i>	

## Other Tools

	Gulp <i>2 years (since 2015)</i>	
	Grunt <i>2 years</i>	
	Webpack <i>Less than a year</i>	
	NPM <i>4 years (since 2013)</i>	
	Bower <i>4 years (since 2013)</i>	
	Mocha <i>4 years (since 2013)</i>	
API DOC	ApiDoc <i>3 years (since 2014)</i>	
	RAML <i>More than a year</i>	
	Swagger <i>More than a year</i>	
	JSHint <i>2 years</i>	
	ESLint <i>More than a year</i>	

## Experience

**2014 - Present time, Node.js Developer**

**Freelancer (Odesk / Upwork)** <http://upwork.com/>

More than year I used to work remotely for MarketWave. (<http://www.market-wave.com/>) MarketWave is company who provide customer multi-channels management (Phone, Live Chat, etc). Company provide sales support for visitors with key leaders of e-commerce. They was my general clients.

### Primary Responsibilities:

- Design, develop, test and deploy web applications
- Develop appropriate code structures to solve specific tasks according to standards
- Fix bugs, troubleshoot and resolve problems
- Build flexible data models and seamless integration points
- Comment code and write documentation using ApiDoc
- Code review

### Used technologies and tools:

- Platforms: Node.js
- Frameworks: Express, Angular, Bootstrap
- Databases: MS SQL, Couchbase, Elasticsearch
- Documentation: ApiDoc
- QA: Mocha, JSHint
- Another tools: Less, Jade, Grunt, Bower, NPM

## 2012 - 2014, Team Leader / Project Manager

**QCoders** <http://qcoders.com/>

During work in this company I had only one general project which was divided to few small subprojects. InTouch <http://intouch.inweb24.us/> InTouch is a email marketing system. Like MailChimp or Mandrill but with an emphasis in network marketing. I'm started this project from scratch. Gradually our team has grown up to 7 developers. It was first experience with Node.js on commercial project.

### Primary Responsibilities:

- Project management
- Team management (team of seven members)
- Estimating and resource planning
- Design and development of system architecture
- Design and development of source code
- Database design and development
- GUI design
- Code review

### Used technologies and tools:

- Platforms: Node.js
- Frameworks: Express, Backbone, Bootstrap
- Databases: MongoDB
- Documentation: RAML
- QA: Mocha
- Another tools: Less, Jade, Grunt, Bower, NPM

**2011 - 2012, Senior Software Developer / Team Leader**

**Quadecco** *<http://quadecco.de/>*

Development of many projects for outsourcing company using following technologies

**Primary Responsibilities:**

- Team management
- Estimating and resource planning
- Design and development of system architecture
- Design and development of source code
- Database design and development
- GUI design
- Code review

**Used technologies and tools:**

- Platforms: PHP, Javascript, HTML, CSS
- Frameworks: Yii, Zend Framework, jQuery, Mootools
- Databases: MySQL, MSSQL

**2009 - 2011, Senior Software Developer / Team Leader**

**ZFort Group** <http://www.zfort.com.ua/>

Development of many projects for outsourcing company using following technologies

**Primary Responsibilities:**

- Team management
- Estimating and resource planning
- Design and development of system architecture
- Design and development of source code
- Database design and development
- GUI design
- Code review

**Used technologies and tools:**

- Platforms: PHP, Javascript, HTML, CSS
- Frameworks: Yii, PRADO, Zend Framework, jQuery
- Databases: MySQL

**2007 - 2009, Software Developer**

**Intetics Co** <http://intetics.com/>

Development of many projects for outsourcing company using following technologies

Primary Responsibilities:

- Code development

- Database development

Used technologies and tools:

- Platforms: PHP, Javascript, HTML, CSS

- Frameworks: jQuery

- Databases: MySQL

**2005 - 2006, Junior Software Developer**

**Letwork** <http://www.letwork.com/>

Development of many projects for outsourcing company using following technologies

Primary Responsibilities:

- Code development

- Database development

Used technologies and tools:

- Platforms: PHP, Javascript, HTML, CSS

- Databases: MySQL
