Black belt - I'm a ninja!

OS/Platform

Windows
10+ years (since 1998)

Linux
10+ years (since 2004)

FreeBSD
2 years

MacOS
Less than a year

Programming Language

TypeScript
6 years (since 2017)

JavaScript
10+ years (since 2004)

HTML
10+ years (since 2004)

CSS
10+ years (since 2004)

PHP
10+ years (since 2004)

C++
2 years

C#
More than a year

Java
More than a year

Game Engines

	Phaser 2 *More than a year*	
	Phaser 3 *4 years*	
	Three.js *3 years*	
	Unity *More than a year*	

NoSQL DBMS

MongoDB
More than a year

Couchbase
2 years

Elasticsearch
2 years

Redis
10 years (since 2013)

Relational DBMS

MS SQL
3 years

MySQL
10+ years (since 2004)

PostgreSQL
More than a year

ORM

Sequelize
10 years (since 2013)

Mongoose
More than a year

Team Collaboration Tools

Git
5 years

Subversion
5 years

JIRA
2 years

Redmine
More than a year

Target Process
More than a year

Tools/Frameworks

	Node.js *10 years (since 2013)*	
	Express.js *10 years (since 2013)*	
	HAPI *Less than a year*	
	jQuery *10+ years (since 2009)*	
	Angular *2 years*	
	Backbone *Less than a year*	
	React *7 years (since 2016)*	
	Redux *7 years (since 2016)*	
	NW.js *Less than a year*	
	PhoneGap *Less than a year*	
	Cordova *Less than a year*	
	Jade (Pug) *10 years (since 2013)*	
	LESS *10 years (since 2013)*	
	SASS *8 years (since 2015)*	
	Bootstrap *10 years (since 2013)*	
	Material-UI *7 years (since 2016)*	

Network Technologies

REST	**HTTP(S) REST** *10+ years (since 2012)*	
	OAuth (1, 2) *More than a year*	
	WebSockets *More than a year*	

Other Tools

npm	**NPM** *10 years (since 2013)*	
	Bower *10 years (since 2013)*	
Gulp	**Gulp** *8 years (since 2015)*	
	Grunt *2 years*	
	Webpack *Less than a year*	
API DOC	**ApiDoc** *9 years (since 2014)*	
RAML	**RAML** *More than a year*	
	Swagger *More than a year*	
JSHint	**JSHint** *2 years*	
	ESLint *More than a year*	
mocha	**Mocha** *10 years (since 2013)*	

Experience

2017 - 2022, Senior Javascript Developer

ironSource *https://www.is.com/*

Code review

Used technologies and tools:

Platforms: Node.js

Frameworks: Express, Angular, Bootstrap

Databases: MS SQL, Couchbase, Elasticsearch

Documentation: ApiDoc

QA: Mocha, JSHint

Another tools: Less, Jade, Grunt, Bower, NPM

2012 - 2014, Team Leader / Project Manager

QCoders *http://qcoders.com/*

During work in this company I had only one general project which was divided to few small subprojects. InTouch http://intouch.inweb24.us/ InTouch is a email marketing system. Like MailChimp or Mandrill but with an emphasis in network marketing. I'm started this project from scratch. Gradually our team has grown up to 7 developers. It was first experience with Node.js on commercial project.

Primary Responsibilities:

Project management

Team management (team of seven members)

Estimating and resource planning

Design and development of system architecture

Design and development of source code

Database design and development

GUI design

Code review

Used technologies and tools:

Platforms: Node.js

Frameworks: Express, Backbone, Bootstrap

Databases: MongoDB

Documentation: RAML

QA: Mocha

Another tools: Less, Jade, Grunt, Bower, NPM

2011 - 2012, Senior Software Developer / Team Leader

Quadecco *http://quadecco.de/*

Development of many projects for outsourcing company using following technologies

Primary Responsibilities:

Team management

Estimating and resource planning

Design and development of system architecture

Design and development of source code

Database design and development

GUI design

Code review

Used technologies and tools:

Platforms: PHP, Javascript, HTML, CSS

Frameworks: YII, Zend Framework, jQuery, Mootools

Databases: MySQL, MSSQL

2009 - 2011, Senior Software Developer / Team Leader

ZFort Group *http://www.zfort.com.ua/*

Development of many projects for outsourcing company using following technologies

Primary Responsibilities:

Team management

Estimating and resource planning

Design and development of system architecture

Design and development of source code

Database design and development

GUI design

Code review

Used technologies and tools:

Platforms: PHP, Javascript, HTML, CSS

Frameworks: YII, PRADO, Zend Framework, jQuery

Databases: MySQL

2007 - 2009, Software Developer

Intetics Co *http://intetics.com/*

Development of many projects for outsourcing company using following technologies

Primary Responsibilities:

Code development

Database development

Used technologies and tools:

Platforms: PHP, Javascript, HTML, CSS

Frameworks: jQuery

Databases: MySQL

2005 - 2006, Junior Software Developer

Letwork   *http://www.letwork.com/*

Development of many projects for outsourcing company using following technologies

Primary Responsibilities:

Code development

Database development

Used technologies and tools:

Platforms: PHP, Javascript, HTML, CSS

Databases: MySQL
