Summary

About ten years experience in PHP development.

Extensive experience in programming engineering and algorithm development.

Over three years experience in Node.js development.

Strong skills in development and implementation.

Abilities in inventing solutions, algorithms, methods and approaches.

Well skilled in database design and system architecture design.

Strong skill in "Single Page Application" development.

Good attention to details.

Native languages - Russian and Ukrainian. Conversational English.

Education

Graduated from Kharkiv National University of Radio Electronics in 2007, Masters Degree. Kharkiv, Ukraine.

M.S. in Computer Science, major in Computer Data Processing Systems.

Skills

OS/Platform

Windows	19 years (since 1998)	★★★★★
Linux	13 years (since 2004)	★★★★★
FreeBSD	2 years	★★★☆☆

Programming Language

JavaScript	13 years (since 2004)	★★★★★
HTML	13 years (since 2004)	★★★★★
CSS	13 years (since 2004)	★★★★★
PHP	10 years	★★★★★
C++	2 years	★★★☆☆
Java	1 year	★★☆☆☆

NoSQL DBMS

MongoDB	1 year	★★★★☆
Couchbase	2 years	★★★★☆
Elasticsearch	2 years	★★★★☆
Redis	4 years (since 2013)	★★★★☆

Relational DBMS

MS SQL *3 years*	★★★★☆
MySQL *13 years (since 2004)*	★★★★★
PostgreSQL *1 year*	★★★☆☆

ORM

Sequelize *4 years (since 2013)*	★★★★☆
Mongoose *1 year*	★★★★☆

Team Collaboration Tools

Git *5 years*	★★★★★
Subversion *5 years*	★★★★★
JIRA *2 years*	★★★★☆
Redmine *1 year*	★★★★★
Target Process *1 year*	★★★☆☆

Network Technologies

HTTP(S) REST *6 years (since 2011)*	★★★★★
OAuth (1, 2) *1 year*	★★★☆☆
WebSockets *1 year*	★★★★☆

Tools/Frameworks

Node.js *4 years (since 2013)*	★★★★★
Express.js *4 years (since 2013)*	★★★★★
HAPI *Less than a year*	★★★★★
jQuery *8 years (since 2009)*	★★★★★
Angular *1 year*	★★★☆☆
Backbone *Less than a year*	★★☆☆☆
React *Less than a year*	★★★★☆
NW.js *Less than a year*	★★★☆☆
PhoneGap *Less than a year*	★★☆☆☆
Cordova *Less than a year*	★☆☆☆☆
Jade *4 years (since 2013)*	★★★★★
LESS *4 years (since 2013)*	★★★★★
SASS *Less than a year*	★★☆☆☆
Bootstrap *4 years (since 2013)*	★★★★★
Material-UI *13 years (since 2004)*	★★★★☆

Other Tools

Tool	Experience	Rating
Gulp	2 years (since 2015)	★★★★★
Grunt	4 years (since 2013)	★★★★★
NPM	4 years (since 2013)	★★★★★
Bower	4 years (since 2013)	★★★★★
ApiDoc	3 years (since 2014)	★★★★★
RAML	1 year	★★★☆☆
Swagger	1 year	★★★☆☆
Mocha	4 years (since 2013)	★★★★★
JSHint	3 years (since 2014)	★★★★★

Experience

2014 - Present time, Node.js Developer
Freelancer (Odesk/Upwork) *http://upwork.com/*

More than year I used to work remotely for MarketWave. (http://www.market-wave.com/) MarketWave is company who provide customer multi-channels management (Phone, Live Chat, etc). Company provide sales support for visitors with key leaders of e-commerce. They was my general clients.

Primary Responsibilities:

Design, develop, test and deploy web applications
Develop appropriate code structures to solve specific tasks according to standards
Fix bugs, troubleshoot and resolve problems
Build flexible data models and seamless integration points
Comment code and write documentation using ApiDoc
Code review

Used technologies and tools:

Platforms: Node.js
Frameworks: Express, Angular, Bootstrap
Databases: MS SQL, Couchbase, Elasticsearch
Documentation: ApiDoc
QA: Mocha, JSHint
Another tools: Less, Jade, Grunt, Bower, NPM

2012 - 2014, Team Leader / Project Manager

QCoders *http://qcoders.com/*

During work in this company I had only one general project which was divided to few small subprojects. InTouch http://intouch.inweb24.us/ InTouch is a email marketing system. Like MailChimp or Mandrill but with an emphasis in network marketing. I'm started this project from scratch. Gradually our team has grown up to 7 developers. It was first experience with Node.js on commercial project.

Primary Responsibilities:

Project management

Team management (team of seven members)

Estimating and resource planning

Design and development of system architecture

Design and development of source code

Database design and development

GUI design

Code review

Used technologies and tools:

Platforms: Node.js

Frameworks: Express, Backbone, Bootstrap

Databases: MongoDB

Documentation: RAML

QA: Mocha

Another tools: Less, Jade, Grunt, Bower, NPM

2011 - 2012, Senior Software Developer / Team Leader

Quadecco *http://quadecco.de/*

Development of many projects for outsourcing company using following technologies

Primary Responsibilities:

Team management

Estimating and resource planning

Design and development of system architecture

Design and development of source code

Database design and development

GUI design

Code review

Used technologies and tools:

Platforms: PHP, Javascript, HTML, CSS

Frameworks: YII, Zend Framework, jQuery, Mootools

Databases: MySQL, MSSQL

2009 - 2011, Senior Software Developer / Team Leader

ZFort Group *http://www.zfort.com.ua/*

Development of many projects for outsourcing company using following technologies

Primary Responsibilities:

Team management

Estimating and resource planning

Design and development of system architecture

Design and development of source code

Database design and development

GUI design

Code review

Used technologies and tools:

Platforms: PHP, Javascript, HTML, CSS

Frameworks: YII, PRADO, Zend Framework, jQuery

Databases: MySQL

2007 - 2009, Software Developer

Intetics Co *http://intetics.com/*

Development of many projects for outsourcing company using following technologies

Primary Responsibilities:

Code development

Database development

Used technologies and tools:

Platforms: PHP, Javascript, HTML, CSS

Frameworks: jQuery

Databases: MySQL

2005 - 2006, Junior Software Developer

Letwork *http://www.letwork.com/*

Development of many projects for outsourcing company using following technologies

Primary Responsibilities:

Code development

Database development

Used technologies and tools:

Platforms: PHP, Javascript, HTML, CSS

Databases: MySQL
